Response to RFI - Nursing Professionals Needed in NH

RFQ1468316

CYNET HEALTH INC.

21000 ATLANTIC BLVD. #700 STERLING VA 20166

1. Need to know whether personnel are available to perform medical duties in COVID positive patient environments

Yes, certified by The Joint Commission, Cynet has delivered various RNs, LPNs, CNAs, Paramedics and Medical technician in COVID positive patient environments.

2. Would be helpful to know availability/deployability/responsiveness time how quickly can they get on site, once the State will execute a contract?

Cynet Health has a strong pool of qualified medical professionals for deployment in the shortest turnaround. Some of the Facilities we are supporting in NH are **Concord Hospital, Cottage Hospital, St. Joseph Hospital, The Memorial Hospital and Lakes Region General Hospital** and we actively track all of our consultants' assignments start and end dates which helps us maintain a pool of qualified medical professionals and deliver in short notices too.

Based on our current pool of candidates we anticipate having our medical staff available within 3 to 5 days after the contract is executed.

3. Also, where in the country will the personnel be coming from (since it might matter for NH's state entry requirements)

Cynet Health will be focusing on the local talent available withing NH or nearby regions, however, might utilize its resources from other states who are willing to travel and relocate if DHS will consider such resources.

Attached below is the Pricing for your review.
