

Hi Ryan!

Let's just say we have over 250 people who can deploy by Monday. I reached out to our previous employees and other leads this morning and our phones are ringing off the hook, literally!

I have copied Angela, our CEO, on our email exchange because she has a few questions about billing and such, if you can answer that!

The most questions I'm getting from our HCPs is whether or not a NH license/certification is required, as well as whether or not we will be billing for hotels and providing housing for them.

Thank you for your assistance! Let's do this!

Madison Hamilton

Good morning,

FEMA Leadership would like to confirm immediate availability of your staff if a need were to materialize in the near future. Do you currently have staff ready for immediate deployment (within a couple days)? Unfortunately I can't give an accurate estimate on the number of staff that would be requested or the length of time.

Thank you,

Ryan Colgan

We are able to provide all of the personnel types that were listed in the RFQ. Rates would be anywhere from \$90-\$158/hr with overtime after 40 hours per week; this is based on the rates that we received in FL and NYC for our travelers. They are able to work in 2-week periods with possibility of extensions (given by the state) and are willing to work around COVID-positive patients. They will also work however many hours are needed. Many of our testing sites scheduled travelers 60-84 hours per week. Most of our personnel will be coming from Florida, but we do have others in other parts of the country since we staff on a nationwide basis. If we can be advised on which states to "avoid" for NH state entry purposes, we would be happy to do so.

Hope that helps!

Madison Hamilton

Can you provide rates? If not, please just provide as much information as you can in relation to the RFI posting. I think the posting notes some of the info we are looking for from vendors.

Thanks!

Ryan Colgan

Okay, so definitely ICU nurses and possibly Med Surg nurses. Awesome! What do I need to submit to reflect our interest?

Thank you!

Hi,

Thanks for your response. Glad to hear your interest level. I'm sure your rates would depend on the need, but as of right now we just know they might soon need "Nursing related professionals" to assist with COVID related services like testing.

Hi Ryan!

My name is Madison Hamilton and I am interested in knowing more about the FEMA contracts that NH has posted. I work for Hamilton Staffing Solutions, we are a Travel Healthcare Professional staffing agency and has a great amount of experience in staffing COVID contracts, including over 500 travelers in New York City and Florida. I was reviewing the RFQ and I didn't see anything specifically about what needs to be submitted along with the rates. Can you help me out with that? We would love to get our contract in there and send people up there ASAP! We are able to mobilize people about 5-7 days after they express interest. We can do it sooner if the background check process is simple.

Thank you!

Madison Hamilton
