

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

Disaster Struck Facilities (DSFs) Conference Calls:

Dates: August 23, 2022, and August 24, 2022

Times: 10:00 AM - 11:00 AM (Morning Session)
1:00 PM - 2:00 PM (Afternoon Session)

(See Microsoft TEAMS Link at end of this document)

Thank you for participating in the upcoming RI LTC-MAP 2022 Exercises.
Listed below are the dates of the exercises for each region.

Northern Region – September 20, 2022 (9:00am-12:30pm)

Southern Region – September 21, 2022 (9:00am-12:30pm)

Focus of Exercise: The focus of this exercise is to have all RI LTC-MAP members test their ability to perform the actions necessary of a Disaster Struck Facility (DSF). This will create an opportunity for all participating members to:

- Review facility evacuation plans.
- Stand up Command Centers, with participation from community partners.
- Complete steps necessary to activate the RI LTC-MAP and understand the processes to support the safe relocation of residents, including Transportation Evacuation Surveys to identify transportation requirements for each resident.
- Manage Holding Areas with mock residents.

A core focus of this exercise will be having all RI LTC-MAP members conduct a *Transportation Evacuation Survey* as well as determine proper placement of mock residents and fill out appropriate documents and forms.

Objectives of the Exercise: Specific exercise objectives can be found in the Exercise Plan, located on the website (www.mutualaidplan.org/ri) under the 2022 Exercise Documents.

ALL FACILITIES ARE REQUESTED TO PARTICIPATE IN THIS EXERCISE.

There will be a lot of activity on the exercise days, and we want to ensure everyone has the information they need to make this opportunity a success. Below are details concerning your facility's role during the exercise.

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

Exercise Day:

Northern & Southern Regions	Task
08:30 AM	Neighboring Region Everbridge Message to <i>support</i> the evacuations by completing Emergency Reporting at www.mutualaidplan.org/ri .
09:00 AM	START EX: Exercise commences via the Everbridge Alert message.
09:05 AM	All Regional plan members complete Emergency Reporting at www.mutualaidplan.org/ri .
09:10 AM	All Regional plan members establish their Command Centers and review internal actions that must be completed (Complete <i>Transportation Evacuation Survey</i> and enter at www.mutualaidplan.org/ri . Develop your facility Incident Action Plan, etc.)
09:20 AM	Mock Resident Accepting Facilities/ Communities (RAFs) will be sent out via LTC-MAP Notification Email. These are NOT REAL RI LTC-MAP members. Each DSF will determine proper placement for their mock residents based on the bed availability of the mock RAFs, as well as the categories of care they can accommodate.
09:30 AM	Conference Call. All Regional plan members join a Conference Call / TEAMS Meeting for a Situational Briefing. Links and Dial-in and instructions will be sent on the day of your Regions exercise.
09:45 AM	DSFs prepare to send residents: <ul style="list-style-type: none"> • Establish holding area(s) • Physically move mock resident(s) into holding area (factoring in multi-level facilities where applicable).
10:00 AM	DSFs each fill out Resident Emergency Evacuation Forms using true clinical information from residents with fake names. Each DSF will fill out 10% of their licensed beds, up to twenty (20) <i>Resident Emergency Evacuation Forms</i> . Please note: You can print these forms from www.mutualaidplan.org/ri under 2022 Exercise Documents. Please save your printed triplicate forms for use in real-world incidents.

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

10:15 AM	With list of Mock RAFs , DSF is to fill out <i>Resident/Medical Record/Staff/Equipment Tracking Sheet(s)</i> and determine placement of mock residents. <ul style="list-style-type: none">• Review how to prepare the residents for evacuation.• Review staffing levels pertaining to the evacuation.• Review pickup locations of arriving transportation.
11:00 AM	DSFs determine recovery efforts and actions to take place internally: <ul style="list-style-type: none">• Contacting vendors for supplies, equipment, and restoration.• Messages to staff, resident's family members, and media.
11:30 AM	END EX: Exercise concludes via an Everbridge Alert message.
11:45 AM	All exercise participants to join the Hot Wash/Conference Call with RIDOH and all participating plan members.

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

Pre-Exercise Assignments: (Complete by September 9, 2022)

1. Review appropriate emergency plans and the contents of your RI LTC-MAP binder.
2. Go to the LTC-MAP website, www.mutualaidplan.org/ri, and log in to your facility. Review the following tabs and be sure they are up to date: *(If you are unable to log on click the help button and request assistance)*.
 - Facility Information, specifically:
 - Facility address, phone, and fax numbers
 - Generator information
 - Contact information:
 - Email address, office, cell, and home numbers for *(at a minimum)*:
 - Administrator/Executive Director
 - Director of Nursing/Resident Care Director
 - Director of Maintenance / Plant Operations

* *In order to receive the e-mail injects on the day of the exercise we need to have your contact information listed correctly.*

 - LTC Beds:
 - Update your Categories of Care and information about the number of residents in dementia-secured units *(if applicable)*.
 - Evacuation Sites:
 - List your Top 10 evacuation sites *(cross-reference with categories of care)*.
 - Vendors:
 - Update all your vendors, as needed. At a minimum, you should have your critical vendors listed:
 - Beds
 - Food
 - Generator Fuel
 - Generator Repair
 - Medical Supplies
 - Restoration Company
 - Transportation Provider (Wheelchair & Ambulance)

Full-Scale Exercise Definition

Full-Scale Exercises (FSEs) are typically the most complex and resource-intensive type of exercise. They involve multiple agencies, organizations, and jurisdictions and validate many facets of preparedness. In an FSE, events are projected through an exercise scenario with event updates that drive activity at the operational level. FSEs are usually conducted in a real-time, stressful environment that is intended to mirror a real incident. The FSE simulates reality by presenting complex and realistic problems that require critical thinking, rapid problem solving, and effective responses by trained personnel. The level of support needed to conduct an FSE is greater than that needed for other

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

types of exercises. The exercise site for an FSE is generally large, and site logistics require close monitoring. Safety issues, particularly regarding the use of props and special effects, must be monitored. Throughout the exercise, many activities occur simultaneously.

Please review (below) the elements of the RI LTC-MAP 2022 full-scale exercise that reference the above definition of FSEs.

ALL DSFs should address each of the following elements of the exercise:

1. **Mock Residents:** This year, it is the responsibility of each DSF to arrange for volunteer mock residents (5-10 people) to be at its facility for the functional portion of the exercise. We recommend using off-shift staff, regular volunteers at your facility, or residents' family members as mock residents. The mock residents will not be leaving your facility; rather, they will be brought to your Holding Area and prepared for simulated evacuation. The purpose is to determine proper Holding Area location, setup, and simulated evacuation flow. Please reference Holding Area Coordinator Checklist at www.mutualaidplan.org/ri under 2022 Exercises Documents.

During the exercise, we recommend you assign each mock resident a name tag, *Resident Emergency Evacuation Form*, medical charts, equipment, and personal belongings. Please fill out the *Resident Emergency Evacuation Forms* using true clinical information from residents. Each DSF will fill out forms for 10% of their licensed beds, up to twenty (20) *Resident Emergency Evacuation Forms*. The more realistic you make this portion, the more your facility will benefit from the exercise.

2. **Evaluators:** Have one or two evaluators (staff member, local emergency manager, fire department/EMS representative, or other) within the Holding Area and the Command Center and have them evaluate the process of preparing residents to evacuate as well as any communication that takes place internally and with external agencies. Exercise Evaluation Guides (EEGs) will be at www.mutualaidplan.org/ri under 2022 Exercises Documents.
3. **Transportation Evacuation Survey:** During the exercise days, all RI LTC-MAP members will be requested to conduct an internal *Transportation Evacuation Survey*. This helps local fire departments and emergency medical services, transportation companies, and others understand the transportation needs of your residents. To assist with this, we recommend downloading the *Instructions - Transportation Evacuation Survey (Online Version)* at www.mutualaidplan.org/ri under the 2022 Exercises Documents folder.

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

4. **Emergency Reporting:** On the day of the exercise, complete Emergency Reporting at www.mutualaidplan.org/ri within 30 minutes of receiving the Everbridge alert message. Use this as a training opportunity with your leadership team. The goal is that all members of your team know how to complete Emergency Reporting. Since all members are DSFs, the emergency reporting must reference ***WHY*** you are evacuating. This can be based on potential real-world problems/issues that may arise at your facility/community should a tropical storm occur. What could force you to evacuate? Examples: roof damage with flooding, other structural damage, flooding of Electrical Room with transfer switch damage, etc.
5. **Activate your facility Command Center:** On the day of the exercise:
 - a. Assemble your leadership team and utilize the Nursing Home Incident Command System (NHICS) that was presented at the 2022 Annual Education Conference.
 - b. Simulate communications with external agencies as appropriate.

IMPORTANT: For ALL real communications (radio, phone, verbal or other), please be sure to begin and end all transmissions with the phrase: “*This is a drill.*”

6. **Establish your Holding Area:** Fully set up the area where you would hold residents as they are prepared to evacuate the facility. Identify the staffing and equipment necessary to support this area. The objective for this area is to:
 - a. Clinically assess residents before evacuation (wellness check).
 - b. Review all medical records/forms/personal belongings.
 - c. Identify:
 - i. Medical diagnoses
 - ii. Current medications and last dose
 - iii. Allergies
 - iv. Mental status
 - v. Mobility
 - vi. Special precautions
 - d. Medical Records: Review process on how you would provide medical records (either paper or electronic), depending on the facility to which they will go (e.g., can you transfer electronic records to other facilities within your parent company vs. those that are not?). Walk through this process to ensure your clinical team is clear on how you would accomplish this.

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

7. **Relocate Mock Residents to Holding Area:** Determine the process of getting the residents to the holding area, factoring in mobility, dementia residents, the vertical movement for facilities over two stories, etc. Each mock resident should be run through the activities described in #6 when they arrive in the Holding Area.
8. **Mutual Aid Plan Binder:** Ensure you have one hard copy of the Mutual Aid Plan printed and in the facility Command Center or another accessible location.
 - a. Education should take place internally on the Plan for leadership positions and those who could answer incoming calls. Be sure to maintain documentation of this as annual training, as required by the CMS Emergency Preparedness Rule.
9. **Community Involvement:** To be CMS-compliant, you need to involve your community partners. Invite them **now** to your facility/community for the day of your exercise to observe and/or serve as an evaluator. This includes the fire department, local emergency manager, and EMS. Please document this process throughout, including ensuring that all community partners sign in.

Note: If your community partners cannot attend or do not respond, please document this by saving email correspondence. Be sure to maintain this documentation, to provide to surveyors to demonstrate compliance with the exercise requirements in the CMS Emergency Preparedness Rule.

10. **Photos and Inject Response:** Please provide all requested Injects and Documents in **ONE (1) email** to photos@mutualaidplan.org
 - a. Subject Line – Your Facility Name and Region (Northern or Southern)
 - b. Attach the following:
 - i. 3 Photos
 - ii. Inject Responses
11. **Facility After Action Report (AAR):** After the exercise, all RI LTC-MAP members will complete their own After Action Report. **In order to be compliant with the CMS Emergency Preparedness Rule, facilities will need to complete the Jensen Hughes provided facility AAR template.** The objective of the AAR is to take lessons learned from the exercise and to incorporate them into and improve your Emergency Operations Plan (EOP). The AAR template will be provided by Jensen Hughes, at www.mutualaidplan.org/ri in the 2022 Exercises folder.

2022 RI LTC-MAP Disaster Struck Facilities (DSFs) Exercise Guide

Please note: All members must save their Facility After Action Report with your internal documents/process. Neither Jensen Hughes nor the Rhode Island Department of Health (RIDOH) will be collecting copies of these reports.

IMPORTANT: For ALL communications (radio, phone, verbal or other), please be sure to begin and end all transmissions with the phrase: “THIS IS A DRILL”

TEAMS Link / Conference Call Numbers are below for all DSF Conference Calls
(You can either use the TEAMS Web Application or Dial-In Number)

YOU ONLY NEED TO ATTEND ONE PREP CONFERENCE CALL

Tuesday, August 23, 2022, 10:00 AM and 1:00 PM
Wednesday, August 24, 2022, 10:00 AM and 1:00 PM
