

Inject # 2 Mock Resident Accepting Facilities (RAFs)

THIS IS A DRILL - A list of Mock Resident Accepting Facilities (RAFs) is attached. Print this list to determine the proper placement of the mock residents you are evacuating in today's exercise. Please factor in open bed availability, appropriate levels of care, and other factors when selecting evacuation sites for your residents. Fill out a Resident / Medical Record / Staff / Equipment Tracking Sheet for each group of mock residents you are evacuating to a mock nursing home or assisted living community. Send the completed Tracking Sheet(s) to photos@mutualaidplan.org at the end of the exercise.
